## **PHILOSOPHY OF THE DUNKLIN R-5 SCHOOL DISTRICT**

The improvements and survival of our democratic society, the strength of our community, our nation, and our international stability are all dependent upon our informed citizenry. Quality education and equality of educational opportunities for all and the accomplishments of the public schools are basic foundations upon which the achievement of individuals and the welfare of the society in general rest.

We believe schools reflect the communities they serve. Formal education was established by the community to help students through appropriate programs and services regardless of race, religion, sex, age, national origin, or handicapping condition in developing their intellectual, vocational, emotional, physical, and social potential to the most. Each student, being limited only by individual differences, should be given the opportunity to develop and achieve to the maximum extent possible. Therefore, the school district will foster an educational environment that provides equal educational opportunities for all students.

 Shall be found unwavering true  
 When we from life shall part

### School Fight Song

Herculaneum High School is a member of the Missouri State High School Activities Association and adheres to all rules and regulations established by the association. The association is composed of approximately 580 senior high schools located in all parts of the state.

Eligibility to represent a school in interscholastic activities is a privilege to be attained by meeting the standards of eligibility cooperatively set by the member schools through this association and any additional standards set by a member school for its own students.

The following are basic eligibility rules of which every student participating in interscholastic activities must be aware:

- 1) Students must be a good citizen in school and the community. Any student who represents his/her school in interscholastic activities must be a creditable citizen and judged so by the proper school authority certifying the list of students for competition. A student whose character or conduct is such as to reflect discredit upon himself/herself or his/her school is not considered a creditable citizen. Student conduct shall be satisfactory in accord with the standards of good discipline. A student who misses more than three classes on the date of a contest without being excused by the principal shall not be considered eligible on that date. Herculaneum High School has the authority to set more restrictive citizenship standards and shall have the authority to judge its students under those standards. (see below)
- 2) Students must be enrolled in courses that offer a minimum of 3 units of credit, and they must have earned a minimum of 3 units of credit the preceding semester or made standard progress in Special Education.
- 3) Students must have entered school within the first eleven days of this semester. Entering school is interpreted as enrolling and attending classes.

- 4) Students must not have received or competed for any award of any kind other than that given by the school for their services as an athlete in the sports in which they are competing. Competing for awards having a utilitarian value such as jackets, cash or merchandise prizes will make them ineligible.
- 5) Students must not have reached their 19<sup>th</sup> birthday prior to July 1 of the school year. Freshmen must not have reached their 16<sup>th</sup> birthday prior to July 1 of the school year.
- 6) Students must not have competed under an assumed or false name.
- 7) Students must not transfer schools without a corresponding change of residence of their parents unless they meet an appropriate exception of the transfer standards. Always check with your principal before transferring.
- 8) Students must not have graduated or received an early release from a four-year high school or its equivalent. Seventh (7<sup>th</sup>) and eighth (8<sup>th</sup>) graders are not eligible to compete with tenth (10<sup>th</sup>) graders or above. Ninth (9<sup>th</sup>) graders, who compete with tenth (10<sup>th</sup>) graders or above in a sport, may not return to compete against seventh (7<sup>th</sup>) and eighth (8<sup>th</sup>) grade teams in that sport.
- 9) Students must attend their eighth semester immediately following their seventh (7<sup>th</sup>) semester. High school students are eligible only during the first eight semesters of attendance.
- 10) Students must not have competed at any time as a member of a junior college or senior college team.
- 11) Students must not have competed on an outside team or in individual match competition during the season they are representing the school in the same sport.
- 12) Students must not transfer from one school to another because of being influenced to do so.

All students in grades 9 -12 trying out for an interscholastic activity offered at Herculaneum High School must fill out and return to the school the Dunklin R-5 Student Participation Handbook and Physical Form each year. This form is to be returned to the coach or sponsor of the activity. A student will not be allowed to participate in interscholastic athletics, practices or contests until all parts of this form are completed, signed by all concerned, and on file with the school. Students must adhere to the discipline policies outlined in the Dunklin R-5 Student Participation Handbook.

## STUDENT GUIDELINES

### Attendance Policy

Satisfaction of attendance requirements for class shall be a pre-requisite for receiving credit toward graduation. The attendance policy designates seven (7) days absence each semester as the maximum allowed for normal circumstance of regular school attendance. It must be remembered that arriving late or leaving school early counts as an absence for those classes that are missed. Students who are late **15 minutes** or more will not be allowed in school without parents being contacted. Any student who arrives **25 or more minutes** late is considered absent from that class. It should be noted that school sponsored or sanctioned activities for which the student has been properly excused or exempted from will not pertain to this policy. In addition, absence or tardiness due to the failure of a bus to make its regular run does not pertain to this policy; however, absence or tardiness due to individual transportation problems does pertain to this policy.

If a student is absent in one class period, which is equivalent to one day's absence in that class. The seven (7) absences are to accommodate:

- 2) Professional appointments that cannot be scheduled outside of school.
- 3) Religious observances.
- 4) Serious personal or family problems.

Missing four (4) periods in the same class shall result in notification of the parents by letter. Missing six (6) classes result in a 2<sup>nd</sup> letter being sent to the parents notifying them of the absences. Missing the eighth (8<sup>th</sup>) class in one semester will result in a 3<sup>rd</sup> letter to parents informing them of failure to earn semester credit. This letter will include an invitation for the parents to meet with the Herculaneum High School Attendance Review Committee (HHSARC) to show cause, such as extenuating circumstances:

- 1) Chronic illness.
- 2) Hospitalization.
- 3) Death in the family.

The HHSARC is composed of at least one (1) teacher, one (1) counselor, and one (1) administrator who will review the specific conditions relating to each individual's absence. The HHSARC has the right to permanently revoke or suspend a student's credits up to one semester. The credits may be earned back the following semester if the student does not violate the attendance policy. Seniors violating the attendance policy may forfeit their right to walk at the graduation ceremony at the conclusion of the school year. Each case will be reviewed on an individual basis by the HHSARC.

The student and parents will forfeit their right to appeal the attendance policy if they do not contact the building administrator within 30 days of the conclusion of the given semester. The high school principal can be reached at 636-479-5200. If the building administration is not contacted within 30 days the Board of Education and the juvenile authorities will be notified.

Following a hearing before the HHSARC, the parents and student may utilize the student grievance procedure and appeal the decision of the committee directly to the Board of Education. The appeal shall be in writing and delivered to the offices of the Board and/or the Superintendent. If an appeal is taken, the Board shall schedule a hearing and give notice of the date, time, and place of the hearing to the parents and student. The parents and student may be represented by counsel at the parent's expense and may produce evidence, as well as, examine and cross-examine witnesses. The Board of Education may let the decision of the committee stand, or may reverse the committee's decision if it finds that the absences should be excused. Notice of the Board's decision shall be given in writing within a reasonable amount of time following the hearing.

### **Activities Restrictions**

Students not present at least four (4) periods the day of an activity shall be considered ineligible to participate in or attend activities on that day. This applies to ALL activities.

# **HERCULANEUM HIGH SCHOOL DISCIPLINE CODE**

## **I. INTRODUCTION**

The Board of Education of the Dunklin R-5 School District is pleased to make this handbook available to parents, students, staff and other patrons. The purpose of the disciplinary policies, rules, regulations and procedures of the Dunklin R-5 School District is to provide a uniform standard of conduct for all students in grades kindergarten through twelve. The contents of this handbook are to promote an environment that contributes to good citizenship and encourage learning. It defines terminology and gives all policies, rules and regulations adopted by the Board of Education related to discipline.

These policies, rules, regulations and procedures are based on the premise that rules must be enforced fairly, firmly, and consistently and in a fashion equitable and just, while complying with state mandates and regulations. It recognizes that as students progress in school and advance in age and maturity, they will assume greater responsibility for their actions. It also recognized that differences in age and maturity require different types of disciplinary action.

Please read this information carefully. It is provided for parents, students, and employees to know the policies, rules, regulations and procedures that are to be followed. Anyone who has a question or desires further explanation may consult with the school principal.

The policies, rules, regulations, and procedures will be reviewed periodically and changes will be made when and if necessary.

## **II. PHILOSOPHY OF STUDENT DISCIPLINE**

The public schools of this community have the responsibility conferred on them by the state, to provide public education for all children until they graduate or reach the age of 21. To discharge this function effectively and equitably, school authorities and parents must ensure an environment in each school which is conducive to the learning process.

Good discipline is imperative for the establishment and development of a successful school, teaching environment, and most importantly, success in learning. Discipline is not punishment that can be pronounced and forgotten. It must be considered as training – training that develops character, efficiency, and self-control. It requires as basic philosophy that good discipline is best thought of as being positive – not negative. It is helping a pupil adjust to requirements of his environment rather than punishment for not having adjusted. Our focus is on prevention rather than remediation.

Schools must prepare students for their responsibilities as adults in a democratic society. The ultimate goal of good discipline is self-discipline on the part of the pupil in school and the community. Students exercise choice and must realize consequences for their actions of choice. The student discipline code is an integral component of the educational process and a symbol of the commitment of parents, students, teachers, and administrators to the maintenance of an effective learning environment.

### **III. STUDENT RIGHTS AND RESPONSIBILITIES**

The board believes that students have rights which should be recognized and respected. It believes that every right carries with it certain responsibilities. These student rights and responsibilities are the following:

- C. A cumulative record shall be maintained on each student for his educational welfare, for the orderly and efficient operations of the school and other information as may be required by the law for district regulation. Procedures and practices stemming from this policy shall be in compliance with “The Family Educational Rights and Privacy Act of 1974” and “The Public School Laws of Missouri”.

Students will be made aware of their legal rights and of the legal authority of the Board to delegate authority to its staff and make rules and regulations regarding the orderly operation of the district schools. School officials and teachers have the authority to interpret and apply policy. Students must obey any such interpretation subject to an appeal.

Schools must be a place where students are encouraged to learn. Standards of conduct are established by the Board to create an environment in which each student’s right to learn is protected.

Failure to follow the rules and regulations of the school or the classroom may mean exclusion from certain school activities such as dances, athletic contests, field trips, etc. Each school has its own guidelines of denial of participation rights when a student has broken school or classroom rules.

Students and their parents will be notified of their rights and responsibilities, including standards of conduct, through handbooks distributed annually.

## **V. DISCIPLINE OF STUDENTS WITH DISABILITIES**

The Individuals with Disabilities Education Act (IDEA) Amendments of 1997 clarified the law and process of disciplining disabled students. Students with disabilities may have a modified discipline plan based on their disability and its ramifications. Principal may modify corrective actions as outlined in the students Individual Education Plan (IEP).

Specific procedures occur when school personnel have behavioral concerns about a disabled student. A functional behavior assessment is done to determine why the behavior exists and what prompts the behavior. A manifestation determination is done to discover if there is a relationship between the student’s disability and the behavior that is subject to a disciplinary action. Based on the findings of the behavior assessment and the manifestation determination, an outline in the plan, which is part of the student’s IEP, to deal with problem behaviors.

If school officials believe that a child’s placement is inappropriate, they can work with the child’s parent through the IEP and placement processes to come up with an appropriate placement for the child. The goal of revising the IEP is to meet the needs of the student, which results in his or her improved learning and the learning of others to ensure a safe environment.

It is recommended that these calls originate in a school setting with notification of the principal.

**Make-up Work** – A student under suspension will not be given credit for work assigned during the suspension with the exception of major projects and tests for the first suspension of each year. Any major project assigned earlier which comes due during the first suspension will be accepted for full credit. Tests missed during a first suspension may be made up in Saturday School following the suspension.

Although the majority of students in the school district follow the rules of the district, it is likely that some students will violate these rules. When a violation occurs, the imposition of sanctions can be expected. We recognize individual differences among our students and the administration of penalties needs to be guided by the premise that if a particular individual can best be handled and/or the situation best controlled by a means other than the set standards, then that method should be employed.

Students with disabilities will abide by the same discipline guidelines as their non-disabled peers. Any exceptions will be noted in the student's IEP (Individual Education Program). The rights of all disabled children will be protected under the provision of the IDEA Amendments of 1997.

The student Code of Conduct is designed to foster student responsibility, respect for the rights of others, and to ensure the orderly operation of the school. No code can be expected to list each and every offense, which may result in the use of disciplinary action. However, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. **Any conduct not included herein, or an aggravated circumstance of any offense or an action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent, and/or Board of Education.**

The Board of Education believes that the right of a child to attend free public schools carries with it the responsibility of the child to attend school regularly and to comply with the lawful policies, rules, and regulations of the school district. This observance of school policies, rules, and regulations is essential for permitting others to learn at school.

Therefore, it is the administration's prerogative to remove a student from his/her present school setting because of willful violation of school rules and regulations, willful conduct which materially or substantially disrupts the rights of others to an education, or willful conduct which endangers the student, other students or the property of the school.

This action is taken in accordance with due process and with due regard for the welfare of both individuals by the administrative act of summary suspension. Expulsion can be implemented only through specific action by the Board of Education

No student shall be suspended unless the following hearing procedures are implemented:

- 1) The student shall be given oral or written notice of the charges against him/her; and
- 2) If the student denies the charges, he/she shall be given an oral or written explanation of the facts, which form the basis of the proposed suspension; and
- 3) The student shall be given an opportunity to present his/her verdict of the incident before judgment is rendered. A student has the right to bring forward witnesses on his/her behalf; and
- 4) Prompt notification of the administrator's action and the reasons for such action will be given to the parent/guardian or others having custodial care of the student.

The Board authorizes the summary suspension of pupils by building principals for a period not to exceed ten (10) days and by the superintendent for a period not to exceed one hundred eighty (180) days school days, provided such action is in accordance with due process and state statutes. Any suspension by the building principal shall be immediately reported to the superintendent, who may revoke the suspension at anytime. The student, his/her guardians or others having custodial care of the student may appeal the principal's decision to suspend the student to the superintendent.

In case of a suspension of a student by the superintendent for a period of more than ten days, the student, his/her parents/guardians, or others having custodial care, may appeal the decision of the superintendent to the Board or to a committee of the Board appointed by the president of the Board, which shall have authority to act in lieu of the full Board. Requests for appeal shall be in writing and filed with the secretary of the Board of Education. Upon the filing of the appeal the suspension, as determined by the superintendent, shall be stayed unless the Board or the committee determines the student's presence poses a continuing danger to persons; or property or an on-going threat of disrupting the academic process. In such case, the judgment shall be immediately transmitted to the student and his/her parents/guardians or others having his/her custodial care, and the student shall be immediately removed from school.

Upon the filing of a request for an appeal of the superintendent's decision to suspend a student for more than a period of ten days, the superintendent shall promptly transmit a written report to the Board, indicating the facts relating to the suspension, the action taken by the superintendent and other administrative officials, and the reasons for such action. The Board, upon request, shall grant a hearing to the appealing party.

### **Student Discipline Hearings**

The Board of Education may originate student discipline hearings upon recommendation of the superintendent. In such cases, the Board of Education will review the superintendent's report and determine whether to conduct a discipline hearing. In addition, student discipline hearings also will be held upon written request of the student or the student's parents, to consider appeals from student suspensions in excess of ten (10) school days. A discipline hearing will always be held in cases of suspensions in excess of 180 school days or expulsions, unless after meeting with the superintendent or designee, the parent or guardian waives, in writing, the right to an expulsion hearing.

In all hearings, whether initiated by the Board of Education or by appeal, the following procedures will be adhered to:

- 1) The student and the parents/guardians will be advised of the charges against the student; their right to a Board hearing; the date, time and place of the hearing; their right to counsel; and their procedural rights to call witnesses, enter exhibits and cross-examine adverse witnesses. All such notifications will be made by certified mail, addressed to the student's parents or guardians. The Board shall make a good-faith effort to have the parents or guardians present at the hearing.
- 2) Prior to the Board hearing, the student and the student's parents/guardians will be advised of the identity of the witnesses to be called by the administration and advised of the nature of their testimony. In addition, the student and the student's parents/guardian will be provided with copies of the documents to be introduced at the hearing by the administration.
- 3) The hearing will be closed unless the Board decides otherwise. The hearing will only be open with parental consent. At the hearing, the administration or their counsel will present the charges and such testimony and evidence to support such charges. The student, his or her parents/guardians or their counsel shall have the right to present witnesses, introduce exhibits, and to cross-examine witnesses called in support of the charges.
- 4) At the conclusion of the hearing, the Board of Education shall deliberate in executive session and shall render a decision to dismiss the charges; to suspend the student for a specified period of time; or to expel the student from the schools of the district. The administration or its counsel, by direction of the Board of Education, shall promptly prepare and transmit to the parents/guardians written notice of the decision.

### **Special Education Students**

The discipline policy established by the school will also be enforced with regard to special education students. Exceptions will be made in the discipline policy when it is found to be in the direct conflict with the student's I.E.P. or handicap.

## **STUDENT DISCIPLINE**

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on school property, including playgrounds, parking lots and school transportation, or at a school activity, whether on or off school property.

## **Notices**

### **PROGRAMS FOR STUDENTS WITH DISABILITIES**

It is the policy of the Board of Education to provide a free and appropriate education for students with disabilities, including those who are in need of special education and related services.

### **PROGRAMS FOR ENGLISH LANGUAGE LEARNERS**

The Board of Education recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. Identifying students who are English language learners (ELL) and ensuring them equal access to appropriate programs are the first steps to improving their academic achievement levels.

### **PROGRAMS FOR HOMELESS STUDENTS**

The Dunklin R-5 School District Board of Education recognizes that homelessness alone should not be sufficient reason to separate students from the mainstream school environment. Therefore, the district, in accordance with state and federal law and the Missouri state plan for education of the homeless, will give special attention to ensure that homeless students in the school district have access to a free and appropriate public education.

### **PROGRAMS FOR MIGRANT STUDENTS**

Recognizing that migrant children are among the most educationally disadvantaged groups in our society, the Dunklin R-5 School District actively seeks to identify all such children who may be temporarily residing (or settled out) within its boundaries and to provide them instructional and/or health services necessary to ameliorate their opportunities for an education.

## **PUBLIC COMPLAINTS**

The following steps are to be followed by parents/guardians or the public when questions or complaints arise regarding the operation of the school district or federal programs to all programs administered by the Department of Elementary and Secondary Education (DESE) that cannot be addressed through other established procedures.

1. Complaints on behalf of individual students should first be addressed to the teacher or employee involved.
2. Unsettled matters from (1) above or problems and questions concerning individual schools should be presented in writing to the principal of the school. The principal will provide a written response to the individual raising the concern within five (5) business days of receiving the complaint or concern.
3. Unsettled matters from (2) above or problems and questions concerning the school district should be presented in writing to the superintendent. The superintendent will provide a written response to the individual voicing the concern within five (5) business days of receiving the complaint or concern.
4. If the matter cannot be settled satisfactorily by the superintendent, it may be brought to the Board of Education. Written comments submitted to the superintendent or the secretary of the Board will be brought to the attention of the entire Board. The Board will address each concern or complaint in an appropriate and timely manner.

The decision of the Board shall be final except in the case of complaints concerning the administration of federal programs. In that case the complainant may go to the appropriate section of DESE and from there on to the United States Secretary of Education.

The Board considers it the obligation of the professional and support staff of the district to field the questions of parents/guardians or the public. Accordingly, the district will inform patrons of this complaint procedure and its availability.

Complaints regarding district compliance with nondiscrimination laws will be processed according to the grievance procedure (AC-R) established for that purpose. Employee grievances will be processed in accordance with the established employee grievance procedure or as otherwise required by law. All other grievances for which there is a specific policy or procedure will be addressed pursuant to that policy or procedure.

## **STATEWIDE ASSESSMENTS**

The district will implement the components of the Missouri Assessment Program (MAP) in order to monitor the progress of all students in meeting the Show-Me Standards, as set forth by the Missouri State Board of Education.

End-of-course (EOC) assessments will be administered in accordance with law and the rules of the Department of Elementary and Secondary Education (DESE). In courses where EOC assessments are given, the superintendent will determine what percent of the course grade will be decided by performance on EOC assessments.

If a student is taking a course that requires an EOC assessment and is failing the course or for some other reason may be required to retake the course, the district may choose to delay administration of the EOC assessment until the student has completed the course the second time. A team consisting of the course instructor, the principal and a counselor will determine when delayed administration of an EOC assessment is appropriate. In the case of a student with an Individualized Education Program (IEP), the IEP team will make the determination.

## **STUDENT RECORDS**

In order to provide students with appropriate instruction and educational services, it is necessary for the district to maintain extensive and sometimes personal information about students and families. These records must be kept confidential in accordance with law, but must also be readily available to district personnel who need the records to effectively serve district students.

### **Parent and Eligible Student Access**

All parents will have the right to inspect their child's education records as allowed by law. As used in this policy, a "parent" includes a biological or adoptive parent, a guardian or an individual acting as a parent in the absence of a natural parent or guardian. The district will extend the same rights to either parent, regardless of divorce, custody or visitation rights, unless the district is provided with evidence that the parent's rights to inspect records have been legally revoked. The rights of the parent transfer to the student once the student turns 18, or attends an institution of postsecondary education, in accordance with law.

If a parent or eligible student believes the education records related to the student contain information that is inaccurate, misleading or in violation of the student's privacy, he or she may ask the district to amend the record by following the appeals procedures created by the superintendent or designee.

## **Directory Information**

Directory information is information contained in an education record of a student that generally would not be considered harmful or an invasion of privacy if disclosed.

The school district designates the following items as directory information.

**High school and vocational school students** – Student's name; parent's name; address; telephone number; date and place of birth; grade level; bus assignment; enrollment status (e.g., full-time or part-time); participation in school-based activities and sports; weight and height of members of athletic teams; dates of attendance; degrees, honors and awards received; artwork or coursework displayed by the district; most recent previous school attended; and photographs, videotapes, digital images and recorded sound unless such photographs, videotapes, digital images and recorded sound would be considered harmful or an invasion of privacy.

## **Law Enforcement Access**

The district may report or disclose education records to law enforcement and juvenile justice authorities if the disclosure concerns law enforcement's or juvenile justice authorities' ability to effectively serve, prior to adjudication, the student whose records are released. The officials and authorities to whom such information is disclosed must comply with applicable restrictions set forth in federal law.

If the district reports a crime committed by a student with a disability as defined in the Individuals with Disabilities Education Act (IDEA), the district will transmit copies of the special education and disciplinary records to the authorities to whom the district reported the crime as allowed by law.

Law enforcement officials also have access to directory information and may obtain access to student education records in emergency situations as allowed by law. Otherwise, law enforcement officials must obtain a subpoena or consent from the parent or eligible student before a student's education records will be disclosed.

## **Children's Division Access**

The district may disclose education records to representatives of the Children's Division (CD) of the Department of Social Services when reporting child abuse and neglect in accordance with law. Once the CD obtains custody of a student, CD representatives may also have access to education records in accordance with law. CD representatives may also have access to directory information and may obtain access to student education records in emergency situations, as allowed by law.

## **Military and Higher Education Access**

The district will disclose the names, addresses and telephone numbers of secondary school students to military recruiters or institutions of higher education as required by law unless the parent or student notifies the district in writing not to disclose the information to those entities.

## **TEACHING ABOUT HUMAN SEXUALITY**

The Board of Education recognizes that parents/guardians are the primary source of sexuality education for their children. The Board also recognizes that effective sexuality education, taught in concert with parents/guardians, helps students avoid risks to their health and academic success and prepares them to make informed decisions as adults. Parent's/guardian's have the right to remove their student from any part of the district's human sexuality instruction.

## **CORPORAL PUNISHMENT**

A staff member may, however, use reasonable physical force against a student for the protection of the student or other persons or to protect property. Restraint of students in accordance with the district's policy on student seclusion, isolation and restraint is not a violation of this policy.

## **STAFF/STUDENT RELATIONS**

Staff members are expected to maintain courteous and professional relationships with students. All staff members have a responsibility to provide an atmosphere conducive to learning through consistently and fairly applied discipline and the maintenance of physical and emotional boundaries with students. These boundaries must be maintained regardless of the student's age, the location of the activity, whether the student allegedly consents to the relationship or whether the staff member directly supervises the student. Maintaining these boundaries is an essential requirement for employment in the district.

Staff members are encouraged to communicate with students and parents/guardians for educational purposes using a variety of effective methods, including electronic communication. As with other forms of communication, staff members must maintain professional boundaries with students while using electronic communication regardless of whether the communication methods are provided by the district or the staff member uses his or her own personal electronic communication devices, accounts, webpages or other forms of electronic communication. Staff members are to follow and abide by board policy GBH on STAFF/STUDENT RELATIONS.
